## INTRODUCTION

“So we do not lose heart. Though our outer self is wasting away, our inner self is being renewed day by day.” 2 Cor 4:16

Greetings and lots of love from the Uwezo Director and Team!

Uwezo Team is grateful to all our partners and Friends for supporting us in this generous task. We have really experienced God’s love through you.

It has been quite a busy season for us at Uwezo as we work together in Empowering Children and making their lives better as God enables us. Without your support, we would not have reached this far. Despite the COVID-19 pandemic which continues to infect and affect everyone in the world, we have been helping the poor families with food since they really struggle to get a meal on the table. As Kenya has been declared to be experiencing drought, things are worse for the vulnerable families who depend on their small farms for survival.

## MENTORSHIP PROGRAM

“Start children off on the way they should go, and even when they are old, they will not turn from it.” – Proverbs 22:6. We often hear the saying that children are our future. But what happens when children take the troubled path, succumbing to crime, drug addiction or self-destruction? If children are our future, then it is important to begin investing in them at an early age. Uwezo does that through mentorship. We usually award presents to kids who do well in school and give out items that relate to the topics that we cover with the kids in order to boost their remembrance of the things they learn.

*Our sponsored child being counselled by our admin*

*Our sponsored kids receiving gifts for working hard in school*

## HOME VISITS

Uwezo regularly visits the children in their homes to check on their progress, encourage and pray with the family and also share a food package with them.

## MOUNT ELGON PROJECT

The Mt. Elgon Project is aimed at bringing medical services nearer to the poor people. Normally, they have to walk for a long distance to access Health services but with the Health center near, they will have accessible and affordable health services. A care taker's house and store have already been constructed as well as septic tank.

## KIDS UPDATE

Our kids have been receiving studying materials while they go back to school. This ensures they are able to do their assignments and school work at ease.

Some of our kids have been falling sick during the pandemic and we have been on the frontline to take them for treatment.

## **UWEZO TEAM STAFF TRAINING**

Uwezo Uplift Foundation Team attended a Training on Mental Health wellness for two days. The Team also had a good time of interactive learning, Group Discussions, presentations and Team building. The aim of the training was to equip the staff to be able to help the Children in Mental Health.

## **STAFF DEVOTION**

Every day in the morning Uwezo Team meets together and have their morning prayers. They read the scriptures and share prayer items. We acknowledge well that without the help of God we are not able to accomplish anything.
